**CANTAPORT CANTILEVERING ROOF COVER WILL ENHANCE ANY OUTDOOR KITCHEN AND BBQ AREA.**

Cantilevering or posts on two side, Cantaport provides the flexibility to cover Caravans, Campers and RVs. Cantaports, open-ended design allows for easy drive-through access, height clearance with extended posts on wide beam covers and Weatherproof.

The cantaport shading option is space-efficient, contemporary and easy to incorporate to its surroundings. Cantaport caravan shading systems are adaptable and allow for various configurations and heights to customise a design that best adapts to your application.

The cantilever options allows for clearance to one side and further flexibility during parking & maneuvering.

Ventilation Circulating throughout the Freestanding Cantilevering Structure and Weatherproof, Cantaport offers an open functional alternative shade cover. Built-in gutters and rainwater downpipes ensure an efficient fuss-free-structure. The polycarbonate roofing shields 99% of damaging UV rays from your caravans surface.

Your cantilever structure reduces the heat by 83% to improve your comfort levels & allows filtered light to illuminate under the Cantaport roof.

Architecturally designed structure featuring an anodised aluminium frame ensures corrosion free, Termite free Long Lasting Shading Choice.
