## shade

the perfect home shade accessory

Looking for a unique shade cover design to complement your home? Cantaport a unique curved or flat cantilever shade structure with a waterproof and UV roof cover. A lightweight and versatile option, a cantilever can really create an open-air feeling and fantastic sense of space. Avoid attaching to the house can often reduce the requirements from council.

Ventilation Circulating throughout the Freestanding Cantilevering Structure and Weatherproof, Cantaport offers an open functional outdoor space. An overhang of your house eave can achieve a watertight finish without the complications. Courtyard areas are becoming a modern trend with property blocks reduced in size. Cantaport shading structures will adapt to most courtyard applications.

Rated as a fire resistant product, the Cantaport can be installed on the boundary to allow an uncompromised cantilever shade option to maximise the outdoor living shaded area.

Alternatively the posts can be set against the building to provide an architectural awning over the courtyard area. The benefits using cantaport, uncompromised quality, structural aluminium frame that warrants a 7 year manufacture guarantee, anodised finish that will retain the colour of the life of of the structure. Manufactured in Japan to stringent and scrutinised regulations.

The polycarbonate sheeting, unique to the cantaport, reduces the heat by 83%, blocks out 99% UV rays 250 times stronger than glass and allows filtered light through the panels. Built-in gutters and rainwater downpipes ensure an efficient fuss-free-structure. The Cantaport is Australian certified from 125 to 147km wind rating and able to withold 20cm of snow load should the unexpected snow storm occur..!

**Cantaport Uses State-Of-The-Art Technology To The Highest Standards Of Design.**
