NUVOSCREEN

L-CLASS Series

With a selected range of colours and sizes, NuvoScreens are a great choice for any DIY project, Architectural Design, Privacy Screens and Modern Design Screens. Manufactured in Japan to the Highest standards of quality & engineering. NuvoScreens are designed and tested to harsh weather conditions, Strength, toughness, durability, versatility and high resistance for corrosion. The desired durability and firmness along with their strength, NuvoScreens have also become a way of adding to the unique look of the structures. Visual appeal is guaranteed by the use of NuvoScreens available in unique designs, colours matched with the architecture of the structures and offer them a look of luxury.
